

Many renters can actually afford to buy a home, so why don't they?

Are you ready to buy a home?
Call now to get more information.

If you believe:

- Buying a home requires a large down payment.
- The monthly payments would be too much even if you qualified for a mortgage.
- The benefits of owning a home do not outweigh the benefits of renting.

Consider these facts:

- FHA Home loans require as little as 3.5% down and the USDA Rural Housing Program allows for no down payment (available in qualifying rural areas only).
- With the combination of low interest rates and falling home prices, your payments may not be much more than what you are paying in rent.
- Equity is a great benefit of homeownership as well as privacy, security, freedom and tax deductions.*
